JCO6 Rec' T/PTO 28 MAR 2005

**THE FOLLOWING IS THE ENGLISH TRANSLATION OF THE
ARTICLE 34 AMENDED SHEETS (Page 16)**

We claim:-

1. Dye preparations comprising, each percentage being based on the weight of the preparation,
 - a) from 0.1% to 30% by weight of one or more anthraquinone, quinophthalone or azo dyes which are free of ionic groups as a component (A),
 - b) from 0.1% to 20% by weight of a dispersant based on a naphthalenesulfonic acid-formaldehyde condensation product having an average molecular weight of at least 11 000 g/mol, as a component (B),
 - c) from 0.1% to 90% by weight of one or more mono- or polyhydric alcohols as a component (C),
 - d) from 0% to 5% by weight of customary assistants as a component (D), and
 - e) if appropriate water ad 100% by weight.
2. A dye preparation as claimed in claim 1, wherein the fraction of naphthalenesulfonic acid-formaldehyde condensation product having a molecular weight of at least 11 000 g/mol is in the range from 10% to 95%.
3. The use of dye preparations as claimed in claim 1 or 2 as inks for ink jet printing.
4. The use of dye preparations as claimed in claim 1 or 2 for sublimation transfer printing.
5. The use of dye preparations as claimed in claim 1 or 2 for printing textile substrates.
6. The process for printing textile substrates by the ink jet printing process using dye preparations as claimed in claim 1 or 2.
7. The printed textile substrates obtainable by the process of claim 6.
8. The process for printing textile substrates by the sublimation transfer printing process using dye preparations as claimed in claim 1 or 2.
9. The printed textile substrates obtainable by the process of claim 8.
